James Fuccione – Senior Director April 2018

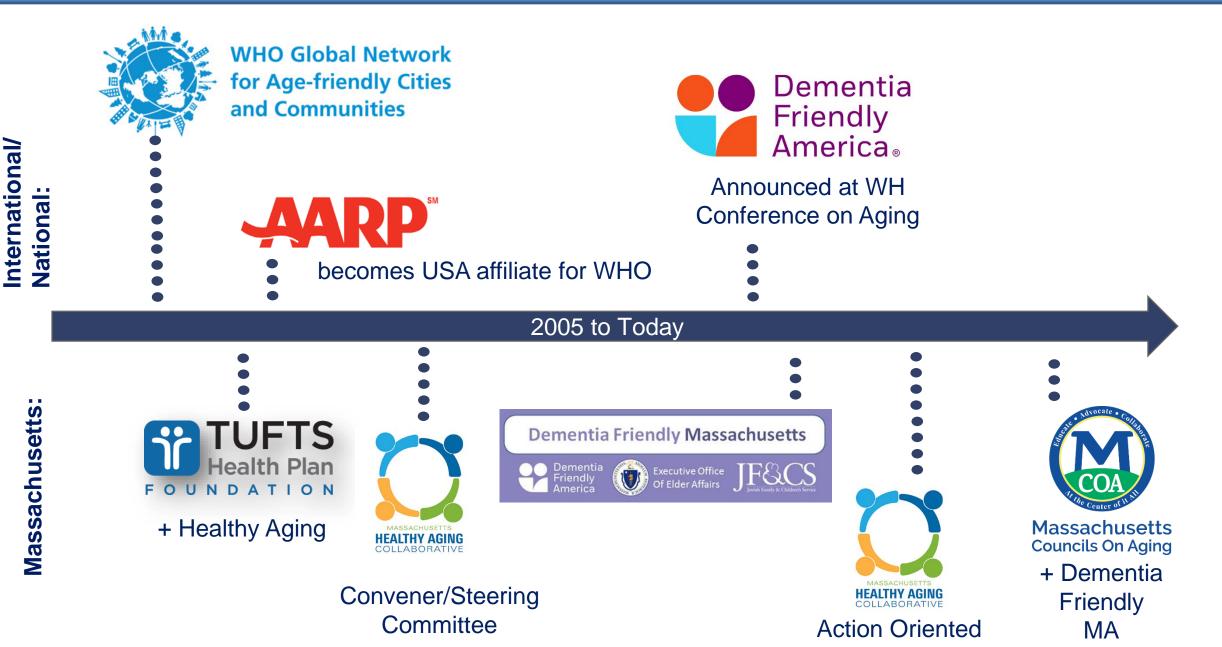

> The work of the Massachusetts Healthy Aging Collaborative is supported in part by:

AARP

How we got here: Age/Dementia Friendly

The **Massachusetts Healthy Aging Collaborative** is a network of leaders in community, health and wellness, government, advocacy, research, business, education, and philanthropy who have come together to advance healthy aging.

MHAC Strategies & Action Committees

Access, Equity, and Inclusion: Ensuring Age/Dementia Friendly community work, Age-Friendly State efforts and MHAC strategy promote access, equity and inclusion.

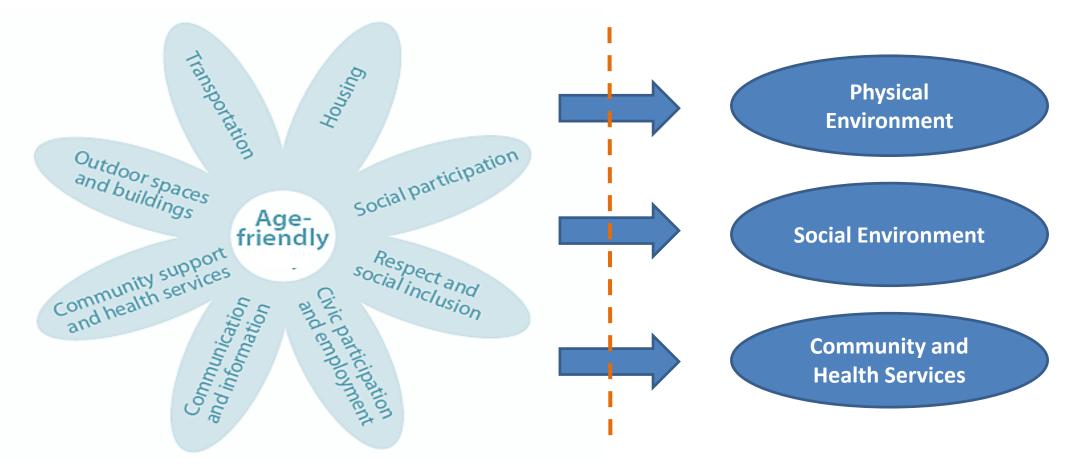

3 Building the Movement: Outreach and education to cities and towns and professional sectors, raising awareness of MHAC Membership

Regional Learning Networks – *in development*: Supporting shared learning and collaboration on Age/Dementia Friendly efforts among cities and towns throughout Massachusetts

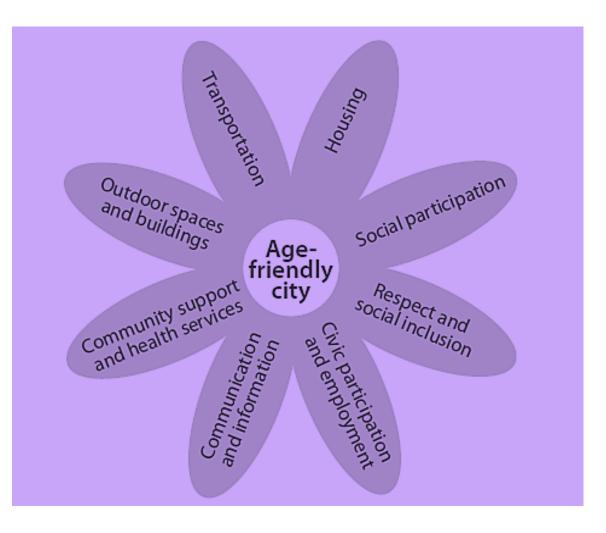

- A **continuous improvement** process (assessment, action planning, implementation) focusing on improving communities in three areas:
 - Physical environment
 - Social Environment
 - Community and health services

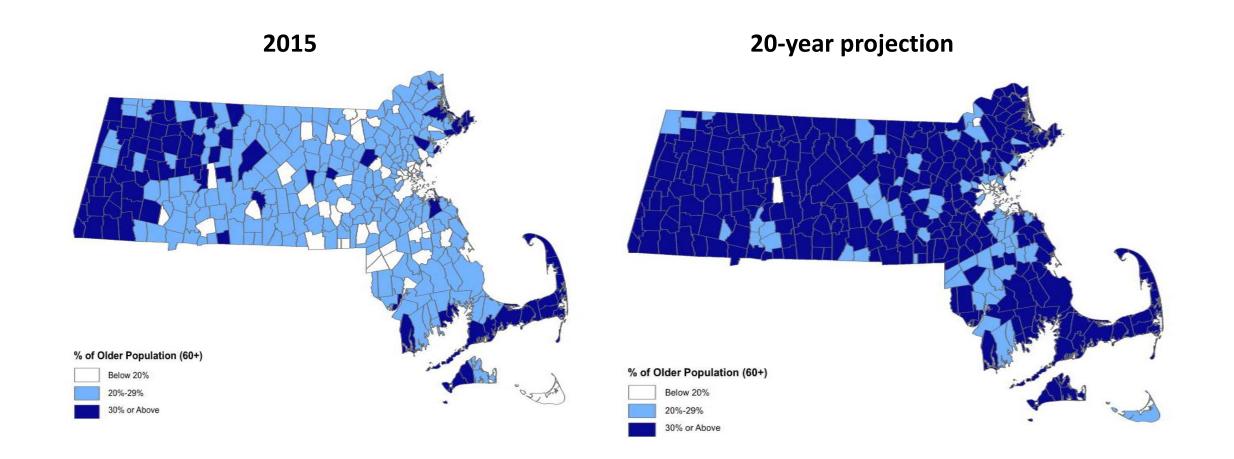

Build capacity of local communities to embark on the Age/Dementia Friendly designation journey

Age-Friendly Community efforts...

- Include people living with Dementia, caregivers, and service/support providers on task force
- A Dementia Friendly advisory group that can focus on raising awareness and working through sectors in coordination with Age-Friendly

What Determines Population Health?

Source: Countyhealthrankings.org

- Governor announced that Massachusetts has been designated by the AARP as only the second state in the country to join that organization's Age-Friendly Network.
- This designation commits our state to a continued path of progress in making Massachusetts more livable and welcoming for older adults and people of *all ages*.

A milestone and great event! Massachusetts is officially committed to being an #AgeFriendly! @MassGovernor @MassHHS @AARP @AARPMA @THPFoundation #volunteeraarpma

MASSACHUSETTS HEALTHY AGING COMMUNITY PROFILE

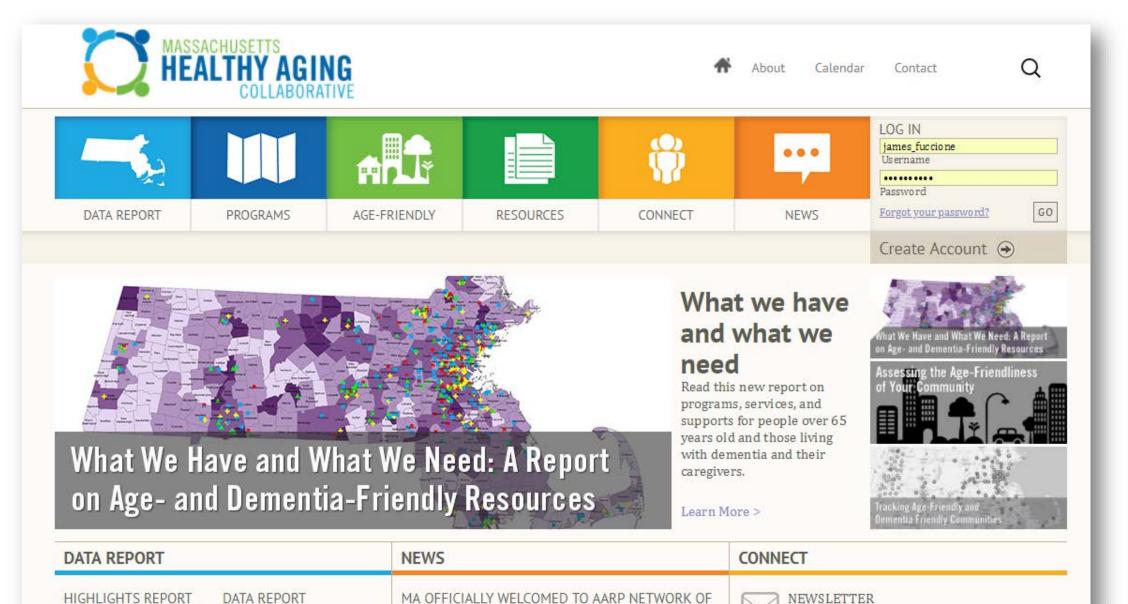

Chester (Hampden)

Chester is a rural town located in western Massachusetts with 203 residents aged 65 or older. The walkscore indicates that this is a very car dependent community (3/100). Compared to state averages, older residents in Chester do better on several healthy aging indicators including: ever diagnosed with depression, diabetes, stroke, osteoporosis, a regular doctor, annual inpatient hospital stay, inpatient hospital readmissions, annual skilled nursing facility stays, emergency room visits, prescription medication use, and shingles vaccine. Community resources to promote healthy aging include a Council on Aging and a public library.
